

PALFINGER HOOKLIFT

APPLICATION PROFILES

EQUIPMENT RENTAL AND MOVING

Equipment rental companies find Hooklifts to be a great way to deliver specialized items:

- Flatbeds can be set onto the ground to provide a “Zero“ loading angle.
- Products can be stored and delivered inside of containers eliminating loading and unloading of trucks. Bodies can be custom built to allow the proper storage and inventory of items and prevent loss.
- The containers can be left at the job site to facilitate the customer loading and unloading the body.
- Specialized bodies we have built include scaffold storage, concrete forms, generators and swimming pool form delivery beds.
- Load and unload from ground level, no more climbing
- Add bodies to make the truck more useful or rent it as a dump truck, flatbed or box truck.
