

# PALFINGER HOOKLIFT

## APPLICATION PROFILES

### TREE CARE CONTRACTOR

Tree Contractors find Hooklifts a great way to handle specialized bodies:

- Switch between seasonal bodies such as a tree spray unit, water tank or chipper body.
- Easily remove brush and logs from the job site.
- Haul a chipper behind the truck and blow chips into a Hooklift chipper body.
- Deliver firewood inside a container sized to 1, 2 or 3 cords of wood. With a divider deliver to multiple customers.
- Eliminate trailers; you can easily haul a Bob Cat inside of the container.
- Load and unload from ground level, no more climbing
- Keep the truck working, no need for it to sit on a job site
- Many contractors have expanded into the waste business
